Two New High School Programs - Teacher Academy and PLTW Biomedical Science
Presented by Andrea Cook (Director of Curriculum)

We are providing space and students for this program. There will be no financial outlay for the district. The district is thrilled with their student numbers for this program and this will help students prepare for college. The teacher academy will allow students who are interested in teaching to stay on our school campus rather than going to another location.

Next School Year – What can parents expect regarding ...

Class Lists Postings - The schools will send home letters with class assignments in late July/early August. Parents can call with questions after August 10.

Open House Dates and Overall Plan - The open house schedule will be available on the new website by July end.

Other Back to School Information - All back to school information (fees, supply lists, etc.) will also be available on the website.

New Website/Notification

Beginning in the fall, a new notification system will be in place offering voice, text, and email to all parents. No signup will be required. The district will launch a new website this summer.

Communication Coordinator

An offer has been made to one of the eight candidates who interviewed for the full time communication coordinator position the district posted in May.

Roundtable

Mr. Schroer (or the new communication coordinator) will be making contact this fall with parents who will be serving on DPC in the 17-18 school year.
