Re: Parental permission to not follow SIS recommendations for school courses

I have reviewed my son's / daughter's course registration for the **2009-2010** school year. I realize that the school's recommendations are based on a combination of standardized test scores, state test scores and grades. In spite of the school's recommendation for my child, I would prefer that my child take the following course if the class size allows it:

Course name: (print) _____

Student name: (print) _____

Rational:

I realize that as a result of this request my son / daughter may have difficulty and lower grades may occur. I will take additional responsibility to work with my child as needed to ensure his / her success in this course.

Please fill out the following information and call Mr. Mapes (Counselor) or Mr. Lewis (Principal) if you wish to discuss this recommendation. (973/748-4113)

Parent Signature: _____ Date: ___/___/09

Parent Name: (print) _____

Home Phone: _____ Work Phone: _____

Student Signature: _____

Student Name: (print) _____

Principal Signature/Springboro Intermediate: _____

Final decisions about approval of parent over-rides will not be made until late August. Decisions to add students will be based upon class sizes. Over-rides will be placed according to student scores as indicated with the registration sheets passed out in May.
