

MEMORANDUM

TO: Parents/Guardians, Teachers, Staff and Support Groups

FROM: Rob Robison
Interim Assistant Superintendent of Student Services and Operations
Springboro Community City School District

RE: Annual Notification of Availability of Asbestos
Management Plans and Update of Activities

DATE:

On October 22, 1986, President Reagan signed into law the Asbestos Hazard Emergency Response Act (AHERA, Public Law 99-519). The law required the EPA to develop regulations which provide a comprehensive framework for addressing asbestos problems in public and private elementary and secondary schools. On October 30, 1987, EPA published the Asbestos-Containing Materials in Schools Rule (40 CFR Part 763 Subpart E). This new rule requires all school districts to inspect for friable and non-friable asbestos in school buildings, develop Management Plans that address asbestos hazards in school buildings, and implement response actions in a timely fashion.

One of the requirements of this law is to annually notify parents, teachers, staff, and support groups of the availability and location of the building's Management Plan. The Management Plans are located in the Main Office of each building. Also, please be advised that information regarding any inspections/re-inspections, surveillances, response actions, and post-response action activities are also included in the Management Plans and available for your review.

Should you have any questions regarding this memorandum, please contact me at 937/748-6005 or email me at rrobison@springboro.org.
